

Wake Up Your Classroom! Energize Your Lesson! Engage Your Students!

Let the Learning Begin with the Intelliboard™ Interactive Whiteboard.

It's the newest, most robust and exciting digital interactive whiteboard available to teachers today. When connected to a computer and a data projector, the Intelliboard interactive whiteboard becomes a large interactive projection screen and your lesson becomes an entertaining multimedia presentation! It's an integrated solution, combining state-of-the-art hardware with leading edge software, creating a powerful teaching tool.

It's an interactive whiteboard. The comprehensive Intelliboard Virtual WhiteBoard software brings ideas to life! Write and draw over projected images, annotate in color, highlight, cut and paste images, and capture it all for future use or electronic distribution.

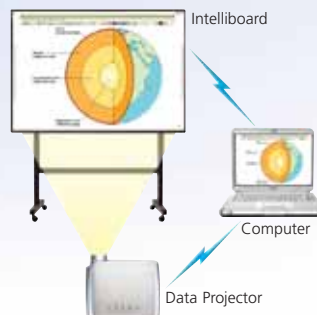

It's an information center. Simply touch the Intelliboard surface with the Multimedia Pen and run all computer functions, such as opening files, running digital video clips, or downloading free content from the Internet from the front of the class. No need to return to your computer and lose the students' attention.

It's Classroom Tough®! Made of a hard laminate, the Intelliboard surface can take whatever your class can give it, virtually eliminating down time and inconvenience. And, it has the only limited lifetime warranty.

The new Intelliboard offers:

- Educational content software for lesson plan development:
 - Encyclopædia Britannica Ultimate Reference Suite DVD (for all grades)
 - Sherston Educational Clipart (for grades 9-12)
- User-definable Softkeys and easy-to-use Softkey Editor. A Numonics FIRST, Softkeys let you instantly launch any pre-selected program or web site, for flexibility and a smooth presentation.
- The first adjustable wall mount and mobile stand bracket, making height adjustments quick and easy.
- The first and only E-Wand (Electronic Wand). An interactive pointer that lets you step out of the projector light and still drive your computer.
- Multimedia Pen with choice of disposable battery size.
- Flexible electronics featuring both onboard USB and RS-232 connectivity.
- Free web-based instructor-led training.
- Free site licensed software.

Let the Learning Begin with Intelliboard™

More Reasons to Choose the Intelliboard Interactive Whiteboard

- Designed to bring the benefits of the latest in interactive presentation technology to the average Windows or Mac user, without the need for a lengthy learning process.
- Virtual WhiteBoard software. Capture written notes, drawings, and ideas in color instantaneously.
- Full mouse capabilities in the Multimedia Pen. With left and right mouse clicks on the pen you are always in control of your computer.
- Digital electromagnetic technology. Accurate and precise, the pen-tip is small so picking points is easier than with a larger pen or your finger.
- Natural writing style. We were taught to write using a pen, not our fingers. Intelliboard interactive whiteboard offers the most natural, intuitive way to write!
- Brilliant image quality, high resolution—1000 lines per inch.
- The industry's only limited lifetime warranty.
- It's easy to use...
