

# Mobilepresenter® BT II

The portable presentation device with Bluetooth technology

The Mobilepresenter® BT II communicates with the computer through a wireless Bluetooth interface that plugs into any USB port on the computer. Mobilepresenter BT II allows you to navigate your computer while roaming the classroom or conference room. Teachers and presenters no longer need to stay rooted to one place – in front of the class or behind a lectern. Mobilepresenter BT II breaks the chains with innovative Bluetooth technology. Cable-free mobility is yours!

Unique Softkeys that are located across the top of the tablet allow instant access to various captivating Presentation Tools, such as Annotation Pens, Spotlight and Reveal. The software also includes a library of clip art with over 6,800 images! Now you can enjoy a higher level of interaction with your audience while delivering more captivating presentations or lessons. The Mobilepresenter® BT II – a great facilitator to any presentation or lesson!

## Features

Precise and lightweight cordless pen provides all necessary mouse functions

Live annotation over presentations, programs, documents and web pages

Clip Art Library for Geography, Math, Science, History and more

Applicable to all Microsoft Office programs, including PowerPoint, Excel and Word

Virtual WhiteBoard (VWB) to capture written notes and ideas in color

RM Easiteach content software

Online Help Menu

Fully battery-operated

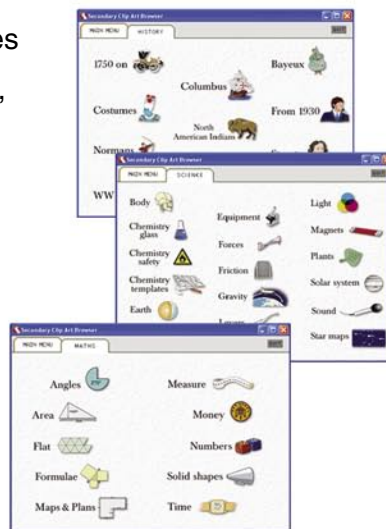

## Benefits

Maximum interaction with students or audience because the teacher/presenter is not required to remain at the front of the room to conduct the lesson or presentation

Great addition to any interactive whiteboard - more options to get students or audience actively involved

Cost effective alternative to an interactive whiteboard - all the software features at a fraction of the cost

Up to seven (7) units connected to one computer
